

Congratulations to Ajinkya Dhariya, founder of PadCare Labs been featured in Forbes India 30 Under 30 in the clean energy and climate change category!

ForbesIndia30U30 Winner of the Clean Energy & Climate Change category, Ajinkya Dhariya, founder of PadCare Labs, has developed the world's first patented sanitary pad recycling technology that recovers pulp and plastic from used pads for industrial applications.

The mechanical engineer has the first-mover advantage in the market. PadCare Labs focuses on reshaping menstrual hygiene and waste management to solve the untapped pollution-causing sanitary waste problems, unhygienic menstrual practices and the well-being of waste pickers. Their technology, PadCare X, breaks down absorbent sanitary waste into high-quality byproducts. To date, it has recycled 138 metric tonnes of sanitary waste. It caters to companies like Meta, Pfizer, P&G, Thermax, Mercedes-Benz and Mahindra.
