

# Bioprime's Innovative Bioinputs Win Top Honors at ABSA 2024!

We're thrilled to announce that Bioprime has been honored with the prestigious Agri Business and Summit Award (ABSA) 2024 in the Bioinputs category! This recognition is a testament to their commitment to innovative research and development, leading to the creation of novel bioinputs that enhance agricultural productivity and sustainably. We're proud to be associated with the forefront of developing solutions that benefit farmers and the environment alike.

*Congratulations to the dedicated team of scientists, researchers, and partners for this achievement!*
