

Craste has been granted another patent for innovative pulping technology!

We're thrilled to announce that Craste has been granted another patent for their innovative pulping technology! This latest patent underscores our ongoing efforts to revolutionize the pulp and paper industry while promoting environmental sustainability.

Behind every patent is a team of passionate individuals committed to making a difference in the world. We recognize and appreciate the incredible efforts of the R&D team who continue to push the boundaries of innovation in sustainable materials engineering.

Congratulations to each and every member of our team for this remarkable achievement! Here's to many more milestones and successes!
