

Prestigious award from a premier international liver disease society

Srikar Raman, representing Tvaster Genkalp, has been honored with the Young Investigator Award at the International Liver Transplant Society, ILTS 2024 Annual Congress, which took place from May 1 to 4, 2024, in Houston, TX, USA. This prestigious award recognizes the outstanding quality of the work *"Integration of a Novel Liquid Biopsy-Based Methylation Profiling Platform with Artificial Intelligence Enables BCLC Staging."* The award showcases Tvaster's innovative research to an international audience.

About International Liver Transplant Society (ILTS)

The ILTS 2024 Annual Congress, organized by the International Liver Transplantation Society, was a premier event in the field of liver transplantation and hepatology. Held from May 1 to 4, 2024, in Houston, TX, USA, the congress brought together leading experts, researchers, and clinicians from around the world to share the latest advancements, research findings, and clinical practices in liver diseases. The event featured a diverse program including keynote lectures, workshops, panel discussions, and abstract presentations, providing a platform for knowledge exchange and collaboration. Attendees had the opportunity to explore cutting-edge innovations, engage in thought-provoking discussions, and contribute to the ongoing progress in liver disease and related fields.
