

Venture Center's BIG grantee Mehul Badwa has won at the 7th edition of C-CAMP-BIRAC National Bio Entrepreneurship Competition (NBEC) 2024.

NBEC is a national competition to attract, identify and nurture bio-entrepreneurs working on novel and scalable business ideas with significant societal impact. NBEC applicants compete for exciting awards which include cash prizes, investment opportunities, and one-on-one mentoring sessions with leading industry and investment experts.

Congratulations to Mehul Badwa of Utopic Tech Private Limited for winning in the healthcare/diagnostics category for Creasens: An instant creatinine measurement device.
