

BioSpectronics Strengthens Its Innovation Journey with NIDHI PRAYAS!

<http://www.big.venturecenter.co.in/biospectronics-pvt-ltd/>

BioSpectronics Pvt. Ltd. has now received support under the NIDHI PRAYAS program. This recognition from the Department of Science and Technology (DST), India, will further accelerate their efforts in deep-tech healthcare innovation.

Led by Founder Sangeeta Sammanwar, BioSpectronics is developing a Miniaturized μ Pad-Based Biochemistry Analyzer, an innovative solution aimed at making biochemical analysis more accessible and efficient. Having supported through the Biotechnology Ignition Grant (BIG) by BIRAC, this additional funding under NIDHI PRAYAS will help the startup refine its technology and move closer to real-world impact.

Congratulations to the BioSpectronics team in their transformative journey!
